

WINGS OF MERCY LUGGAGE REQUIREMENTS

- ** Our Aircraft do not have baggage compartments like airliners. Most of our Aircraft have stowage areas smaller than airliner overhead bins. Therefore, all luggage **must** be packed in small or medium size containers. Large suitcases will not fit in the stowage areas of mission aircraft. A number of smaller bags is better than one large suitcase.

NOTE: Baggage must be limited 20 lbs per person if Recipient is traveling with family/companion(s), or to 40 lbs total if Recipient is traveling alone. Do not be surprised if Pilot weighs your luggage. The Pilot is in charge of every part of your flight. If total weight exceeds the weight limitations of the mission aircraft, the Pilot can require that you ship the excess luggage or you do not fly.

Luggage we **CANNOT** carry.
(1 foot ruler shown for reference)

Luggage we can normally handle.
(1 foot ruler shown for reference)

- ** **Special Cargo:** Recipient **must** notify Mission Coordinator if Recipient requires additional cargo (wheelchair, stroller, oxygen bottles, etc.). Such cargo must be approved by the Pilot in Command prior to departure. **Size measurements and accurate weights of these items must be provided.**
